

Father, Lord!

Yes, we have fear
We are afraid
To suffer, to fall ill
To lose our lives

Watching our loved ones suffer
Or lose them
Help us!
Give us all comfort, strength and hope

Empower all helpers
Comfort the sick and suffering
Let us build bridges
And never overlook anyone

But we also have to say:
Your will be done
This requires courage and composure
Here helps: Jesus' message is a joyful

This life is not everything
Let's put it in your hands
Nothing can really happen to us
We have nothing to fear

Because we cannot really die
Cannot be separated
Suffering and pain, yes, they are there
But joy and life we receive from you

Here we must stand our ground
Help in love, give our commitment
Not despairing, but contributing
Walking in Your light

Then we are not alone, but united
In your glory
Forever and ever
Amen
