

It seems we have forgotten GOD. All we care about is vaccination. But there is so much more than this reality: heaven and hell. We have to share and spread the gospel, the good news. GOD wants to share his realm with us. So much HE loves us. HE doesn't want to be alone. HE created us. GOD gives us a chance to be eternally with him through Jesus, though we have sinned. And GOD makes it so easy for us: We only have to believe in the truth, in his SON and in HIM. Being "new born" in Jesus Christ then obedience is not a must, but an urge. Because we are GOD's beloved children. And we *want* to give our best to HIM. 100 %. Always. Even in times of crisis.

## THANK YOU

You share your realm  
With those who care

You share your glory  
With those who commit

You share your son  
With those who believe

You adopt the ones  
Who stand by the truth

You give meaning  
To those who call you LORD

You offer anything  
And we owe you everything

I happily dedicate my life to you, my LORD  
And accept your kind invitation for eternity

I want to walk in obedience to you, my KING  
Pain and trouble cannot kill the flame of joy in me

Yes! I love you, too  
What else to say but humbly "THANK YOU"
