

International Project Meeting Erasmus+, August 22 till 24 2022

Results of Looking back on the project

Can you populate the project in other networks/places? For example:

- Conference for Peace work in the EKD
- IV
- GPENreformation
- OIEC
- EFTRE – Bianca will try to get a workshop there
- Publications
- AeJ
- Initiatives for peace

Would a Small Flyer be possible? With the results and perspectives?

- Most important step: Finding another donor for the next step
- Highlighting the important parts of the project - giving Europe and the world a new place to connect and be together in these times

What needs to happen to have people actually use it?

- Could there be train the trainer?
- Having a grassroots perspective?
- Runder Tisch Fortbildung in November (Annika is in charge) – Annika will ask if there are any fixed teacher trainings where this can be incorporated
- Networks need a coordinator

Giving out Information is easy, having people contribute is much more difficult

Idea: Continuing with a month of peace education for GPENreformation – traditional peace week in November

- Putting it as a result of the Peace Education Period
- Making it a staple of GPENreformation
- You could change the focus every year – but the theme would be the same
- Working with the workcamps, doing a tour within them

Different idea:

- Getting someone involved with the technical expertise
- Working out a workshop format together with them
- Finding a fund/budget to pay someone like them
- Advertising the workshops
