

# I found the Digital Monday:

# Especially i liked:

that everyone is kind

The Surveys

Talk with each other in groups.  
(Digital speed dating)

The surveys, I think they were  
pretty interesting

the get to know each other part  
at the beginning

I liked the Overall experience!  
Nothing really stading out.

It was intresting, i'm felt great  
myself

The speed dating method was nice. Even it was weird  
sometimes. But it helped to be more confident to talk.

Digital speed dating

# Especially i liked:

atmosphere

The survey was interesting and useful.

김준호

# I didn't like

I think the survey was a bit too long, but the results were interesting.

It was great. Nothing. It was not too long. It's okay.

I didn't really like the digital speed dating because it was a bit awkward

The Digital Speed Dating because almost no one talked, had a camera. A lot of people also couldn't hear anything

There was nothing that I didn't like

At first, the program doesn't work but in the end, everything goes to fine

my breakfast

Nothing, it was pretty cool:)

Speed dating

# I didn't like

Stroboscope

# for the next two days I wish:

I wish to do more interactive  
Things ( f.e. the Survey )

useful information

Have more time for getting know  
each others

I hope we will get to know each  
other more than today

That there will be a lot I can learn

We can talk more with each  
other.
