

Worksheet “Continent Rally”

Form small groups and go to the five stations of the continent rally. **The order of the stations does not matter.** At each station you have **15 minutes** to solve the following tasks:

Read the five theses.

Clarify first which problems and which ideas concerning a better future are addressed.

Discuss your own views on the subject.

What comments, questions or additions do you have to the theses?

Are you familiar with those issues from your own life? What points of contact exist between the theses and your own perception?

Please write your ideas and thoughts under the theses on the poster.

After about 15 minutes you go together to the next station. There you will find next to the theses from another continent also the comments of your fellow students. You can and should complete these comments, too, so that the end result is a general impression in your class.

Station 1: Africa

Station 2: Asia

Station 3: Europe

Station 4: Northern America

Station 5: Southern America
