

Worksheet „Protest and Hope – Voices from One World“

Select one submission of theses from a country of your choice. Selectable are submissions from Africa, Asia, Europe, Northern and Southern America.

Read the theses:

- By what problems of the (world) society, the school and the church are the pupils of this school occupied?
- What ideas of a better future do they have?
- What occupied the authors?

Look for more information about the respective school. The webpage <http://www.schools500reformation.net/> can be a starting point.

Try to get to know the life of the students:

- On what continent, in which country and in which region do they live?
- What does their daily life look like?
- Where is the school, how does it look? Is it different from your school? If so, what makes up the difference?

With the help of your research, compare the theses of the authors again. How do you estimate the protest and the hope of these children now?

Imagine you were asked to introduce this school, these students including their problems and hopes to a World Congress. Create a poster for this World Congress.
