

GPENreformation on the Move for Protestant Communities of Peace!

Participatory action on peace and discord at Protestant schools worldwide

What is it about?

Live in peace and make peace!

GPENreformation would like to particularly promote these key qualities under the guiding theme "Peace Education" in the years 2018 to 2021.

Therefore we want to find out together with you and other students from all over the world how we can become a community of peacemakers and our Protestant schools can become peace gardens. And for this we need your help!

We would like to find out where your school and other Protestant schools around the world are experiencing a lack of peace, i.e. where there may be discord or conflicts, and in which situations living and working together is particularly peaceful; because only if we know where peace or discord prevails among you, we can – in a next step – jointly develop tailor-made approaches and ideas for establishing and securing peace in Protestant schools around the globe!

What is the plan?

We ask you for your cooperation on this topic:

Peace and discord at Protestant schools worldwide

Please refer to the guiding questions:

- B: Where is peace at your school?

- C: Why is there peace at your school and what can you, your teachers, your school, or your government do to ensure peace?
Why is there discord at your school and what can you, your teachers, your school, or your government do to make peace?

We are looking forward to creative contributions for example in the form of

a short play that you film,
a self-written song that you record,
a photograph of yourself or others based on this theme,
an exciting text that you can compose together.
